The following from the Town of Dewhurst Zoning Ordinance.

C. Class D Highways: (Town Roads, all other unclassified)

1. All highways not included in the aforementioned classifications are hereby designated as Class D highways.

2. The setback from Class D highways shall be 63 feet from the centerline of such highways or 30 feet from the right-of-way line, whichever is greater.

C. Maximum Number and Width: The maximum number and width of access driveways to highways and service roads shall be as follows:

1. **Commercial and Industrial Land Uses:** The maximum number of access driveways is two (2) and the maximum width of access driveways is 35 feet. If one (1) driveway is used the maximum width is 50 feet.

2. **Other Land Uses:** The maximum number of access driveways is one (1) and the minimum width of access driveways is 24 feet. and the maximum width of access driveways is 32 ft. Amended 5/13/97

D. Filing For Permit: In addition to the above standards, a permit number E-M-404-68 or its subsequent revision must be filed with Wisconsin State Department of Transportation for access to all state highways. Approval must be given by the above agency before the county will consider and give approval to the applicants request.
